### ABOUT ME

4th-semester Informatics Engineering student at Universitas Pamulang with a practical focus on data structures, algorithms, and database architecture. Transitioning from an F&B and manufacturing background to the tech field, bringing meticulousness, discipline to Standard Operating Procedures (SOPs), and the ability to work under pressure to software development. Currently actively working on independent projects to hone technical skills.

### SKILLS & LANGUAGES

- **Skills:** Python, Website Development, Database Management and Algorithms, React, Next.js & Flask, JavaScript & TypeScript, Time Management
- **Languages:** Indonesian (Native), English (Intermediate)

### EXPERIENCE

#### DW Kitchen Staff

January 2024 - September 2024

*Golden Hotpot and Grill by Golden Lamian*

- Plated meat and vegetables quickly and efficiently according to SOP.
- Cleaned and washed raw ingredients prior to plating.
- Prepared soups and beverages with precision and adherence to SOP.
- Responsible for washing utensils and maintaining kitchen area cleanliness in accordance with hygiene and health standards.

#### Production Helper

January 2022 - April 2022

*PT Cometa Can*

- Operated and monitored the tin can production process according to SOP.
- Conducted meticulous product sorting to ensure cans were defect-free and met SOP standards.
- Handled product packing processes quickly and efficiently.
- Managed the systematic placement and arrangement of cans in the warehouse.

### PROJECTS

#### TechNova University

- Full-stack student management system (React, TypeScript, Flask) featuring an analytics dashboard and an AI chatbot.

#### BrewCraft Coffee

- Independent project of an interactive coffee shop website with a categorized menu, gallery, and order form (HTML, CSS, JavaScript).

### EDUCATION

#### Bachelor of Informatics Engineering

2025 - Present

*Universitas Pamulang*

Active 4th-semester student. Focused on data structures, computer networks, graph theory, and algorithms. Currently designing an independent database website project using Python.

#### High School - Social Sciences Major

2018 - 2021

*SMAN 4 Kota Tangerang*

Graduated with an average score of 84.14. Extracurricular activities included Scouts and Badminton.
